

# SCORE YOUR SHORE: HEALTHY SHORELINES FOR LAKE IMPROVEMENT

MONDAY, MARCH 18, 2024  
12:00 - 1:00 PM ONLINE

Join the Cannon River Watershed Joint Powers Organization as they host the final session of the virtual learning series Land to Lake Lectures. Research Scientist Paul Radomski with the Minnesota Department of Natural Resources Lake Ecology Unit will discuss the Score-Your-Shore survey protocol and the Lake Steward Survey App. These tools allow homeowners to assess the quality of their shoreland habitat and provide productive feedback on actions that could be taken to improve lake stewardship for habitat and water quality. This series is offered in collaboration with the University of Minnesota-Extension.
